

FRANCHISE TAX BOARD

Gerald H. Goldberg, Executive Officer

A report of the 2000 calendar year activities of the Franchise Tax Board prepared in December 2001. This report includes statistics of income compiled from the 1999 returns of individuals and corporations and the 2000 assistance claims of homeowners and renters, most of which were processed during 2000.

Introduction

The Franchise Tax Board

The Franchise Tax Board (FTB) administers California's Personal Income Tax Law, Bank and Corporation Tax Law, and Homeowner and Renter Assistance Law, which are elements of the California Revenue and Taxation Code (R&TC).

During 2000, the three-member board was chaired by the current State Controller, Kathleen Connell. The other board members were Dean Andal, Chair of the Board of Equalization, and B. Timothy Gage, Director of the Department of Finance.

Gerald H. Goldberg, the Board's appointed Executive Officer, directed the activities of approximately 4,700 permanent full-time employees and approximately 2,200 seasonal employees. FTB has offices located throughout California and in Texas, Illinois, and New York.

The Year in Review

During the 2000 calendar year, FTB processed the 1999 tax returns of individuals and business entities and the 2000 claims of homeowners and renters.

The Personal Income Tax Program experienced a 2.6 percent increase in the number of returns filed and a 3.8 percent increase in the number of taxable returns filed. Taxable income increased by 16.6 percent and total tax liability increased by 26.3 percent.

The Bank and Corporation Program saw the number of returns filed increase by 4.4 percent. California net income decreased by 10.3 percent and total tax liability increased by 5.6 percent.

The Homeowner and Renter Assistance Program experienced a 342 percent increase in assistance paid and a 65 percent increase in the number of claimants. This large increase was due to the legislative change of a one-time 150% increase in HRA payments.

More information about the department's programs is presented in other sections of this report.

Legislation enacted in 2000 had an impact on the research credit, child support enforcement, low-income housing credit, Net Operating Loss deduction carryovers, farmworker housing credit, long-term care caregiver credit, HRA one-time 150% increase, and local agency military base recovery area and manufacturing enhancement area employer hiring credits. Also, California added two new Voluntary Contribution Funds: The California Peace Officer Memorial Foundation Fund, and the Birth Defects Research Fund.

For more information about these measures and other legislation enacted in 2000, see the legislation section.

For detailed information about Personal Income Tax, Bank and Corporation Tax, and Homeowner and Renter Assistance, see the attached appendices to this report.

During 2000, the department implemented or participated in significant technological initiative projects to improve the efficiency of the department's programs. These included the Direct Filing Portal, which is a technology channel that allows self-preparers to electronically file returns directly to FTB via the Internet rather than a commercial transmitter. It gives taxpayers the comfort level to overcome the reluctance to e-file and to take advantage of all the benefits it has to offer. Also, it enables FTB to offer additional customer services in the future, including the filing of single or multiple returns, payments, and inquiries from tax practitioners and transmitters. As the number of e-filed returns increases, FTB benefits from a reduction in the number of paper returns that must be processed and stored.

General Fund

The programs administered by the department collected over \$48.2 billion, representing 65.5 percent of the General Fund revenue for 1999.

The Personal Income Tax Program accounted for 56.3 percent of the General Fund and the Bank and Corporation Tax Program accounted for over 9.2 percent.

Personal Income Tax

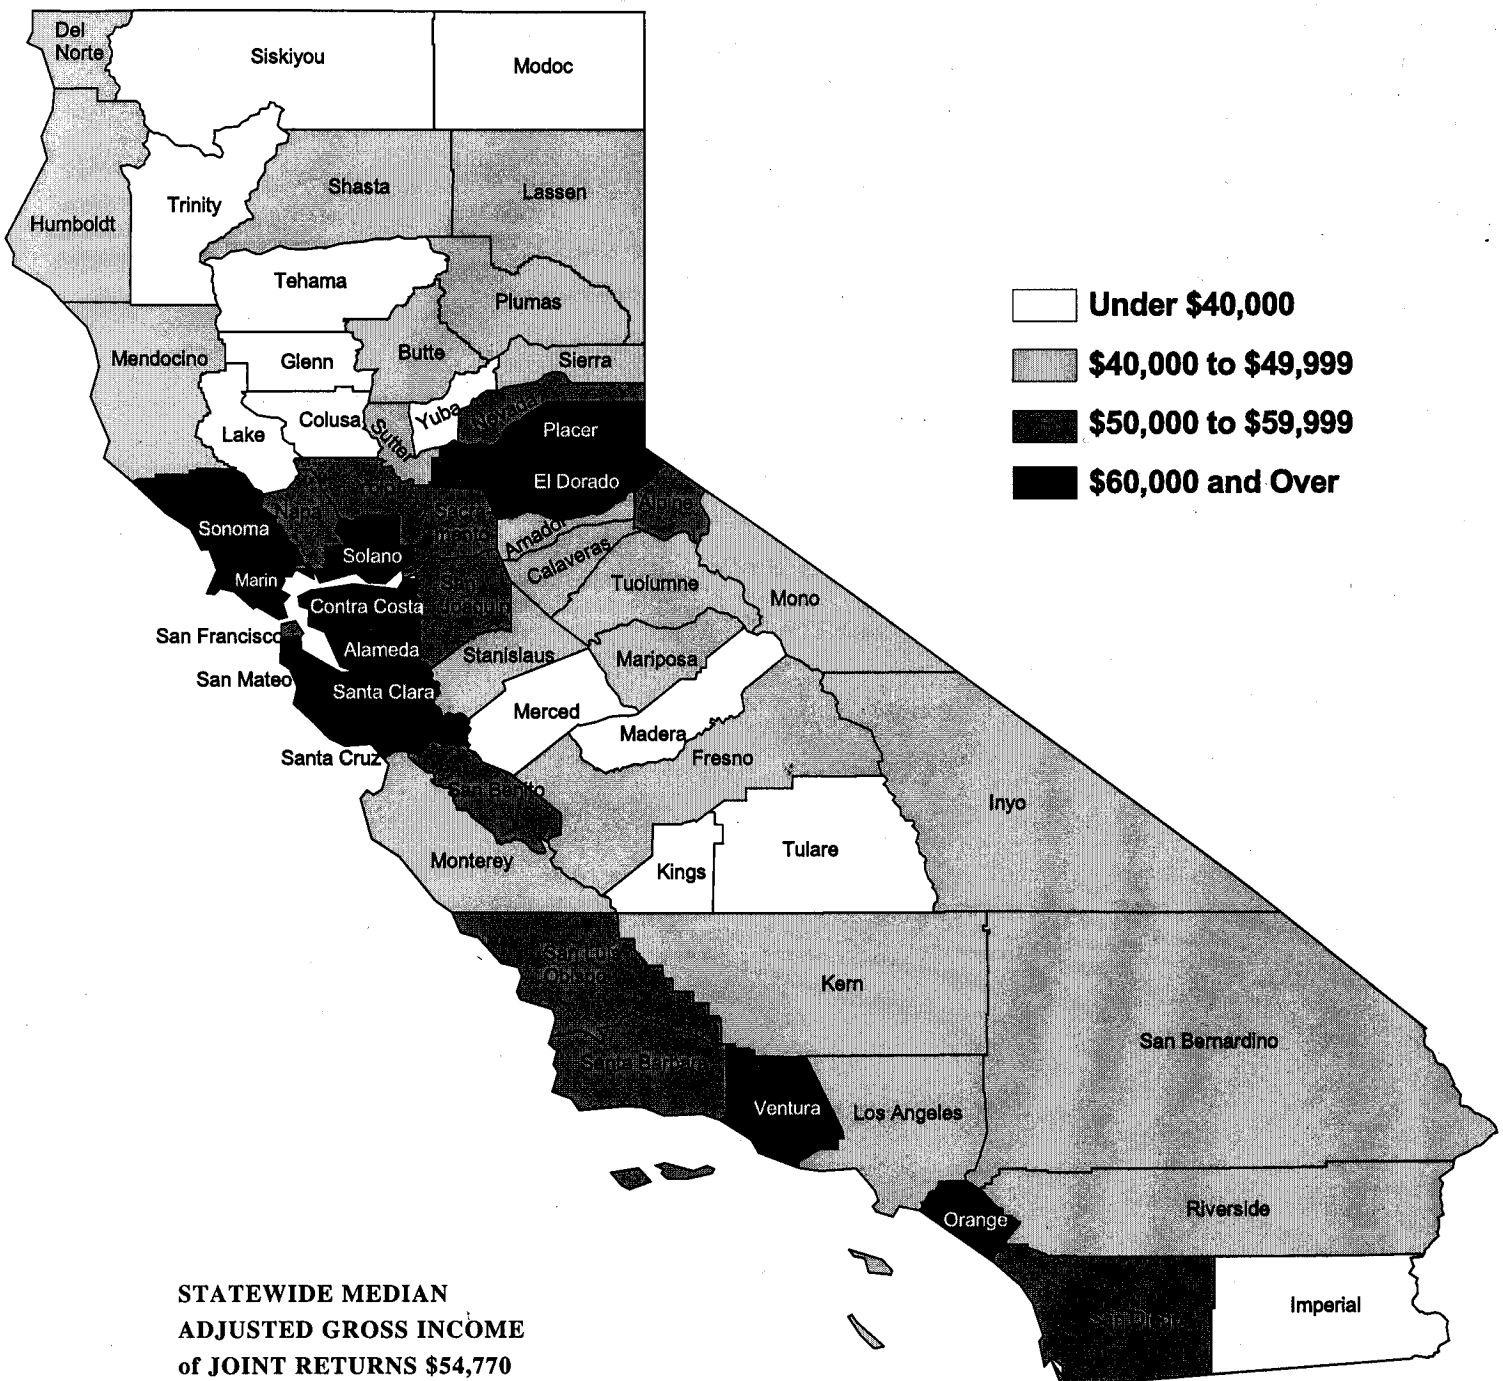

Introduction

The 13.1 million 1999 California full-year resident personal income tax (PIT) returns filed represent an increase of 2.6 percent, or 330,000 returns, from 1998. This total consisted of nearly 5.9 million single filers, nearly 5.2 million married joint filers, more than 1.9 million head of household filers, almost 155,000 married separate filers, and more than 12,000 surviving spouse filers. Of the nearly 13.1 million returns filed, more than 602,000 were Form 540 2EZ, nearly 1.6 million were Form 540EZ, almost 3.1 million were Form 540A (short form), and approximately 7.9 million were Form 540 (long form). Over 2.0 million tax returns were filed electronically in 2000, an increase of 55.1% from 1999. The amount of self-assessed taxes was almost \$33.1 billion, an increase of 26.3 percent over the previous year.

The statewide median adjusted gross income for all filers increased from \$28,251 in 1998 to \$29,376 in 1999, a 4.0 percent increase from the previous year. For taxpayers filing jointly, the statewide median income increased from \$52,145 in 1998 to \$54,770 in 1999, a 5.0 percent increase. For the past 28 years, the Bay Area counties of Marin, Santa Clara, San Mateo, and Contra Costa have consistently reported the highest median incomes. Marin County had the highest median income for joint returns in 1999, reporting \$93,510, while Imperial County had the lowest, reporting \$26,836. The highest median income for all filers was also in Marin County, at \$42,879.

Median Adjusted Gross Income of Joint Returns by County 1999 Taxable Year

The largest gains in median income were reported in San Francisco County, with an 8.0 percent increase for all filers, and Alpine County with a 10.1 percent increase for joint filers. All counties experienced an increase in median income for the “all returns” and “joint returns” categories in 1999.

Data Sources

The county data presented in Appendix B, Tables 6 and 7, the credit information presented in Table 9, and the voluntary contribution table in this section is derived from FTB’s Tax Return Master File. The Tax Return Master File includes data from all 1999 individual tax returns. All other tables in this section and in Appendix B are generated from data gathered from a stratified random sample of personal income tax returns filed during 2000 filing season. This section and the majority of the Appendix B tables summarize only 1999 California resident tax returns filed during 2000. However, part-year resident and nonresident data are summarized separately in PIT Appendix Table 4G.

Sample selection is based on a combination of criteria, including the amount of both state and federal adjusted gross income (AGI) and the relative magnitude of California adjustment items. Information was collected from 103,745 resident returns for the 1999 taxable year.

Indexing

Since 1978, California law has provided for the adjustment of tax brackets, standard deductions and exemption credits to reduce the effect of inflation on average tax rates. The tax brackets were initially adjusted by the percentage of change in the California Consumer Price Index in excess of three percent. Beginning in 1980, the three-percent threshold was removed.

The 1999 inflation adjustment factor was 2.6 percent. This indexing adjustment applied to: exemption credits, standard deductions, some tax credits, limitations on exemption credits and itemized deductions, and the tax brackets.

Adjusted Gross Income (AGI)

California taxpayers are required to compute federal AGI by completing their federal tax return before determining California AGI. To determine federal AGI, taxpayers must subtract federal adjustments from federal income. Once the taxpayer has determined federal AGI, the taxpayer makes California adjustments, both additions and subtractions, to federal AGI to determine California AGI. The chart on page 12 illustrates the process used to arrive at California AGI.

The combined total federal income of full-year resident California taxpayers for 1999 was \$743.8 billion. Major sources of income included: wages and salaries, dividends, interest, pensions and annuities, capital gains, business income, and distributions from partnerships and S corporations.

Increases were noted for all major sources of income. Of particular note were the increases in wages and salaries of \$49.2 billion (11.2 percent), net sale of capital assets of \$35.6 billion (61.1 percent), and net partnership and S corporation income of \$4.8 billion (20.6 percent).

Reductions to federal income due to adjustments amounted to over \$8.2 billion and included: payments to tax deferred retirement accounts and self-employed health plans, job related moving expense, one-half of self-employment

Sources of Federal Income

tax, penalty for early withdrawal of savings, and alimony paid.

California taxpayers reported total federal AGI of \$735.0 billion. From federal AGI, taxpayers subtracted \$27.1 billion and added \$13.7 billion in California adjustments. Subtractions result from differences between federal and state tax treatment of: state income tax refunds, unemployment compensation, social security benefits, California nontaxable interest income, California lottery winnings, IRA distributions, pensions and annuities, passive activity losses, depreciation and amortization, capital gain/loss, and others. Additions result from differences

**Personal Income

Tax by AGI Level**

**Personal Income
Tax: Capital
Assets History**

between federal and state tax treatment of: interest on state and municipal bonds issued by a state other than California, net operating loss, passive activity losses, depreciation and amortization, capital gain/loss, and others.

For 1999, total California AGI reported by resident taxpayers was \$721.7 billion, a 15.0 percent increase from 1998.

Capital gains income showed a strong 61 percent increase from 1998, growing from 9.3 percent to 12.6 percent of total income. Wages and salaries, the largest income category, grew by nearly \$50 billion or 11.2 percent from 1998.

Tax liability was unevenly spread among income groups. The top 1 percent of returns based on AGI accounted for nearly 45 percent of

* Totals may not add due to rounding.

¹ Total does not equal the sum of the detail because total contributions are limited generally to 50 percent of adjusted gross income.

² This amount is the result of taxpayers itemizing their deductions for either state or federal purposes, but not both.

³ This amount is composed mostly of state income tax payments not deductible for state purposes.

*Personal Income
Tax: Itemized
Deductions by
Type**

all tax liability. The top 5 percent paid 65 percent of all tax.

Deductions

The standard deduction for 1999 was \$2,711 for single or married filing separate filers. For married filing joint, head of household and surviving spouse filers, the standard deduction was \$5,422.

The total amount of standard deductions claimed by resident California taxpayers was \$31.6 billion for the 1999 taxable year, a 4.7 percent increase from the 1998 taxable year.

When a taxpayer's deductions exceed the standard deduction, the taxpayer benefits from claiming itemized deductions. However, limitations do apply to some itemized deductions.

The medical expense deduction is limited to the amount that exceeds 7.5 percent of federal AGI. Also, total itemized deductions of high-income taxpayers are reduced to some extent according to recapture rules. Beginning in 1991, interest expenses, other than for home mortgages, were eliminated. Miscellaneous itemized deductions were limited to the amount that exceeded 2 percent of AGI.

About 4.9 million returns (37.6 percent) filed for the 1999 taxable year included state itemized deductions. The total amount of itemized deductions claimed after federal and California adjustments for 1999 was \$89.1 billion, 7.3 percent more than 1998. Of note for 1999 were the significant increases in itemized deductions of state and local income tax of 19.7 percent,

total contributions of 17.7 percent, and medical deductions of 15.0 percent.

Taxable Income

California taxable income after deductions totaled \$609.2 billion in 1999, compared to \$522.6 billion in 1998. This represented a 16.6 percent increase.

Tax Credits

The total amount of tax credits claimed by Californians for 1999 was over \$4.0 billion, nearly \$8.5 million less than 1998. This represented a decrease of nearly 0.2 percent. The credits for personal, dependent, senior, and blind exemptions amounted to more than \$3.5 billion and accounted for 87.9 percent of the total tax credits claimed.

Most credits are limited during the computation of alternative minimum tax (AMT). The section below provides information about credit limitations created by AMT.

Special tax credits are employed to either prevent double taxation or to promote economic or societal goals. Appendix B, Table 9 presents an enumeration of various tax credits applied for 1999. Note that, unlike data presented elsewhere in this report, information presented in Table 9 is developed from the Return Processing Master File and includes credits reported on returns of nonresident and part-year resident returns. As observed in Table 9, of nearly \$560 million of special credits applied as tax reductions, the Other State Tax Credit accounted for \$318 million, by far the largest single tax credit. Other tax credits that represented significant tax reductions included the Nonrefundable Renter's Credit (\$83 million), Prior Year Alternative

Special Credits by Type

Minimum Tax (\$41 million), and the Manufacturer's Investment Credit (\$40 million). The Renter's Credit was reinstated, effective January 1, 1998, after being suspended for tax years 1993 through 1997. Since the renter's credit is a nonrefundable credit that can only be used against a tax liability, a taxpayer in order to claim it must have a tax liability. Prior to tax year 1993, the Renter's Credit was a refundable credit regardless of tax liability.

Alternative Minimum Tax

California tax law gives special treatment to some types of income and allows special deductions and credits for some types of expenses. The alternative minimum tax (AMT) is designed to ensure that individuals who take substantial advantage of these provisions pay at least a minimum level of tax. The AMT rate is 7 percent.

If a taxpayer is subject to AMT, the AMT is added to the taxpayer's regular tax liability. Generally, a taxpayer is subject to AMT if

alternative minimum taxable income (AMTI, defined as taxable income plus AMT adjustments and preferences) totals more than \$58,749 for filers who are married filing joint or qualified widow(er); \$44,062 for filers who are single or head of household; and \$29,374 for filers who are married filing separate. For 1999, there were 16,300 filers who paid \$122 million in AMT compared to 11,000 filers who paid \$49 million in 1998. This represented a 47.3 percent increase in the number of AMT filers and an 148.3 percent increase in the amount of AMT paid compared to 1998.

California's AMT provisions may also increase a taxpayer's regular tax, even if AMT is not owed. This may occur because most California tax credits, including exemption credits, are limited by the taxpayer's tentative minimum tax (TMT).

TMT is the amount of tax calculated by multiplying AMTI minus any AMT exemption amount by 7 percent. Certain credits may reduce the regular tax to TMT; other credits may reduce the regular tax below TMT. A few credits may reduce AMT.

Total Tax Liability

The total tax liability, after credits and other taxes, was \$33.1 billion for 8.5 million returns that reported a tax liability for the 1999 taxable year. This compared to \$26.2 billion for 8.2 million returns that reported a tax liability in 1998. The total tax liability increased 26.3 percent from 1998. The number of taxable returns filed increased by 3.8 percent.

Personal Income Tax: Alternative Minimum Tax History*

Personal Income Tax: Total Tax Liability History

Payments, Withholding, Estimated Tax, SDI and Overpayments

For 1999, \$20.6 billion in taxes were paid through wage and salary withholding. This was a 13.8 percent increase over the \$18.1 billion paid in 1998. Withholding was reported on 10.4 million returns and represented 62.2 percent of the self-assessed total tax liability.

Estimated tax payments of almost \$12.4 billion were claimed on nearly 1.4 million returns. This was a 34.0 percent increase from the \$9.2 billion paid in 1998.

Claims for excess state disability insurance (SDI) were reported on more than 583,800 returns and totaled 37.8 million, averaging \$65 per claim.

The amount of overpayments, before any voluntary contributions were made or any credits were applied to 1999 taxes, was \$5.2 billion on more than 8.2 million returns.

Voluntary Contributions

Since 1982, taxpayers have been afforded the opportunity to make charitable contributions to many special causes on the state tax return. The Peace Officer Memorial Fund and Birth Defects Research Fund were added in 2000.

Of the remaining voluntary contributions on the state tax return, the highest contributions were to the Endangered Species Account of more than

\$569,300, the Breast Cancer Fund of around \$508,600, and the State Children's Trust Fund of more than \$488,600.

Refunds, Transfers, and Balances Due

The number of refunds issued was 7.9 million, a slight increase of 35,000 for 1999. The refund amount totaled nearly \$4.0 billion, an increase of 1.1 percent from the amount refunded for 1998. The average refund issued was \$505 per refund return.

Transfers of overpayments to the 2000 taxable year totaled \$1.2 billion on over 445,700 returns, compared to \$925 million on nearly 460,000 returns for 1998 that were transferred to 1999.

The number of balance due returns for 1999 was nearly 3.3 million, compared to 3.1 million in 1998, a increase of 6.0 percent. Balances due for 1999 totaled almost \$5.3 billion, compared to \$3.7 billion in 1998, a 42.6 percent increase.

High-Income Returns

For 1999, 338,960 returns reported income of \$200,000 or more, of which 550 or 0.2 percent had no net tax liability. This represented a decrease of 11.3 percent in the number of untaxed high-income taxpayers over 1998. The Los Angeles Revitalization Zone Credit was the greatest contributor to tax reductions for these high-income return filers. The Manufacturer's Investment Credit also contributed heavily to tax reductions for this category of taxpayer.

Business Income

How Businesses Report Income in California

The following forms of businesses report income in California: incorporated businesses (banks, financial and general corporations, and S corporations), sole proprietorships, Limited Liability Companies (LLC's), partnerships, Limited Partnerships (LP's) and Limited Liability Partnerships (LLP's), estates and trusts, and exempt organizations. For 1999, 324,407 California banks, financial and general corporations filed returns, reporting \$525 billion in profit and \$208 billion in loss. The total number of S corporations returns filed was 156,629, reporting \$41.9 billion in profit and \$5.3 billion in loss. There were 2,234,127 returns filed as sole proprietorships, reporting \$43.1 billion in profit and \$4.2 billion in loss. 61,881 LLCs filed returns, reporting \$29.3 billion in profit and \$11.8 billion in loss. Partnerships, LPs, and LLPs filed 201,427 returns, reporting \$52.8 billion in profit and \$21.9 billion in loss. There were 249,149 returns filed by estates and trusts, and 76,814 returns filed by exempt organizations.

Profit and Loss by Form of Business

Incorporated Businesses

Incorporated businesses include banks, financials, general corporations and S corporations. Most California banks and corporations file Form 100, Corporation Franchise or Income Tax Return. S corporations must file Form 100S, California S Corporation Franchise or Income Tax Return.

Data Sources

Data appearing in the text portion of this report and the Bank and Corporation Appendix are based on a stratified random sample of corporate tax returns. The sample includes all bank and corporation returns with state net income or loss greater than \$5 million, all returns reporting total receipts or assets of \$50 million or more, and a stratified random selection of approximately 2 percent of all other corporations with state net income or loss of less than \$5 million.

The 1999 sample included 5,954 large banks and corporations and 10,036 other banks and corporations. Included among these were 4,822 S corporations. The tables in the statistical appendix provide summary statistics for all incorporated businesses.

Accounting Periods

Banks, financials, general corporations, and S corporations file returns on either a calendar or fiscal-year basis. All returns and tax are due no later than two-and-a half months after the accounting period ends. FTB automatically grants filing date extensions for seven months. However, tax due must be paid by the original due date.

Income and Deductions

Most corporations doing business in California report income and deductions on a domestic basis. If they operate internationally and have not elected to file on a water's-edge basis, they file on a worldwide basis. Reported income is then apportioned to California or elsewhere. California corporations may report federal income and deductions on their California return. However, certain adjustments must be made to reflect differences between federal and California tax laws. Typical California adjustments include the disallowance of the federal deduction for taxes on or measured by income, the inclusion of interest received on government obligations (except for corporations subject to only the income tax), the exclusion of inter-company dividends to the extent they were

paid from unitary companies that were included in a combined report, and the exclusion of dividends paid out of income previously subject to California corporate franchise or income tax.

Unitary Method

The phrase “income attributable to California” refers to situations in which a corporation does business both within and outside of California and its operations outside of California are “unitary” with the business activity within California. This connection can take several forms that convey a high degree of interdependence between operations, such as centralized decision making, purchasing, selling, accounting, and financing. In such cases, California’s share of total income is determined by application of a formula that is based on three factors: property, payroll, and sales.

Beginning in 1993, legislation was enacted that required the use of a “double weighted” sales factor. Currently, corporations in the banking, savings and loan, agricultural, or extractive industries are exempt from the sales double-weighting requirement. Generally, once the apportionment factors have been determined, the average is applied in determining the income attributable to California.

Apportionment of Income

Corporations that are doing business both within and outside of California are required to file Schedule R, Apportionment and Allocation of Income. Non-business income (attributable to transactions not considered to be an integral part of the regular business operation) from intangible property is generally allocated entirely to the state of commercial domicile. Non-business income from tangible property is

allocated to the state where the property is physically located. The sum of the applicable non-business income items and business income attributable to California by the apportionment formula constitutes the amount of a corporation’s entire net income subject to tax. The apportionment formula (property, payroll, and double or single weighted sales) is applied to the total business income to determine the portion taxable in California. For each factor, the ratio of the amount within California to the total amount within and outside of California is calculated. The average of the factors constitutes the apportionment percentage.

Tax Rates and Minimum Tax

For 1999, the franchise tax rate and the income tax rate for general corporations other than S corporations was 8.84 percent. For S corporations, the tax rate was 1.5 percent. Banks and financial corporations were required to pay an additional in-lieu tax of 2.0 percent. This in-lieu tax is imposed to adjust for exemptions from certain local levies that are allowed to banks and financial corporations. Thus, the composite tax rate was 3.5 percent for financial S corporations and 10.84 percent for banks and other financial corporations not electing S corporation status.

All corporations (including S corporations, financial corporations and real estate mortgage investment conduits (REMICs)) that were subject to the franchise tax were required to pay at least the minimum franchise tax of \$800. An exception to this rule applied to qualified new corporations. For income years beginning on or after January 1, 1999, and before January 1, 2000, the minimum tax for qualified new corporations with less than \$1 million in gross receipts and an estimated first year tax liability of \$800 or less was \$500. If during the income year,

the corporation's gross receipts exceeded \$1 million or the lax liability exceeded the minimum franchise tax of \$800, the corporation must pay an additional amount of \$300.

Other pre-existing exceptions were qualified inactive gold and quicksilver mining corporations that were required to pay a minimum of \$25 and credit unions with less than \$25,000 in gross receipts that were not required to pay the minimum tax.

Other corporations deriving income from California sources, but not sufficiently present to be classified as doing business in California, must pay income tax on California source

income using the same rate as the franchise tax rate.

Estimated Tax

Corporations are required to pay their tax on a current basis through estimated tax payments for the privilege of exercising their franchise to do business in California. Corporations pay the estimated tax in quarterly installments during the income year. For corporations subject to the franchise tax, the first quarterly installment must be at least the minimum franchise tax of \$800, with the exception of qualified new corporations mentioned earlier.

Banks, Financial and General Corporations

Returns Filed

The total number of bank and corporation returns filed was 324,407, a 5.9 percent increase over the previous year. Of those returns filed for 1999, 1.5 percent had state net income that exceeded \$1 million. These corporations accounted for 82.6 percent of the total taxes paid by all corporations. Corporations with less than \$25,000 in state net income comprised 77.5 percent of all returns filed, yet accounted for only 5.1 percent of taxes paid. Corporations with negative income accounted for 35.0 percent of the total returns

filed, reporting \$42.0 billion in losses, an increase of 33.2 percent from 1998.

Accounting Periods

For the 1999 income year, 46.2 percent of corporations reporting state net income filed returns with an accounting period ending December 31 and 10.9 percent filed with an accounting period ending June 30.

Income and Deductions

Corporations reported over \$4.8 trillion in total income for 1999. This amount was a combination of gross receipts (\$26.1 trillion) less the cost of goods sold (\$23.2 trillion) plus other income. Other income, which totaled nearly \$1.9 trillion, includes dividends, interest, rents, royalties, capital gains, and other miscellaneous items.

Total deductible expenses were over \$4.3 trillion for 1999. The largest single expense was for the category of “other deductions” at \$1.4 trillion, followed by “salaries and wages” at \$1.0 trillion and “interest” at \$752.8 billion. The “other

deductions” category includes unallocated expenses, deductions for administrative expenses, sales discounts, travel and entertainment expenses, and losses resulting from theft, fire, storm, etc.

Apportionment of Income

For 1999, the number of corporations with apportioned multi-state or multi-national activity was 34,554, compared to 35,511 in 1998, a 2.7 percent decrease. The state net income after apportionment was \$24.6 billion, compared to \$32.0 billion in 1998, a 23.1 percent decrease.

California property valuation totaled \$867 billion for all apportioning corporations (excluding banks and other financial corporations), which represented 10.3 percent of the total property value for apportioning corporations. California wages and salaries amounted to \$206 billion, or

13.6 percent of total payroll. California sales amounted to \$1.1 trillion or 9.2 percent of total sales. The net effect of these factors was an average apportionment of 10.6 percent of unitary income to California. This compared to 7.3 percent in 1998.

Credits

The total amount of tax credits used by California corporations (including S corporations) for 1999

was \$889 million, a 5.7 percent decrease from \$943 million in 1998. Most credits are limited during the computation of alternative minimum tax (AMT). The section below provides information about credit limitations created by AMT.

Appendix C, Table 5 presents an enumeration of various tax credits applied for 1999, compiled for Banks, Financial, General and S corporations.

Corporations:
Apportionment
Formula****

Note that information presented in Table 5 was developed from the Business Entities Tax System and may differ from information presented elsewhere in the report that was developed from sample data. Of interest is the growing impact of tax credits on corporate tax liabilities and, in particular, the impact of the Research Credit at \$346 million and the Manufacturers' Investment Credit (MIC) at \$331 million.

Alternative Minimum Tax

Each bank or corporation whose taxable income plus adjustments and tax preference items total more than \$40,000 may owe AMT. To determine if AMT is due, corporations must calculate their alternative minimum taxable income (AMTI) by re-computing certain deductions and income items and by increasing regular taxable income by specified tax preference items. The tentative minimum tax (TMT) rate of 6.65 percent (banks and financial corporations must add the in-lieu tax of 2.0

percent to this amount) is applied to AMTI to determine TMT. If TMT is more than the regular tax, the corporation must pay AMT.

Most of California's tax credits are limited by TMT. This credit limitation applies to corporations even if they do not owe AMT. Certain credits may reduce the regular tax below TMT. Also, a few credits may reduce AMT. In 1999, 3,240 corporations paid \$106.8 million in AMT.

Total Tax Liability

For income years ending in 1999, the amount of total tax from bank and corporation taxpayers was almost \$4.9 billion, which was an increase of 5.1 percent over 1998. Of the \$4.9 billion in total tax, the manufacturing sector accounted for nearly \$1.3 billion in tax for income years ending in 1999. This, the largest portion of taxes paid by a major sector, represented 25.9 percent of total corporate tax liability but represented only 34,149 tax returns, or 10.5 percent of the total number of corporate tax returns filed. The finance,

Banks, Financial, and General Corporations: Number of Returns by Industry

insurance and real estate industry accounted for nearly \$1.2 billion in tax, which represented 24.0 percent of total corporate tax liability, and 62,073 tax returns, which represented 19.1 percent of corporate returns filed. The next highest amounts of tax were generated by the trade industry and the transportation, communication and utilities sector. The trade industry accounted for \$0.9 billion in tax, which represented 18.3 percent of total tax liability, and 66,345 tax returns, or 20.5 percent of returns filed. The transportation, communication and utilities sector accounted for \$0.7 billion in tax, or 13.9 percent of total tax, and 11,799 returns, or 3.6 percent of corporate tax returns filed.

Estimated Tax

Corporations paid \$4.5 billion in 1999 estimated tax payments, compared to \$4.8 billion in 1998, a 5.7 percent decrease.

Overpayments and Final Payments

78,125 corporations had overpayments totaling over \$2.4 billion, a 4.5 percent increase in the amount of overpayments from the prior year. These overpayments were either applied to the estimated tax for the following year, applied to another income year's liability, or refunded.

Total Tax Liability by Industry

In addition, 122,024 corporations made final payments of over \$1.1 billion, an increase in final payments of 2.9 percent over the previous year.

S Corporations

Certain corporations, defined in part as those with no more than 75 shareholders, may elect federal S corporation status. The benefits of such an election are the limited liability of a corporation and tax advantages similar to those enjoyed by a partnership. Income is also "passed through" to the individual shareholders and is taxable to them.

California corporations that elect federal S corporation status are deemed to have made a California S election on the same date as the federal S election, unless they elect C corporation (regular taxable corporation) status for California. The federal S election, as well as any California elections to be treated as a C corporation or to return to S corporation status, must be reported to the Franchise Tax Board using form FTB 3560, S Corporation Election or Termination/Revocation.

If the S corporation has any nonresident shareholders or fiduciaries, it must include with the return the consents of the nonresidents to be subject to the jurisdiction of the State of California to tax its pro rata share of S corporation income attributable to California sources. Failure to attach such consents may cause FTB to revoke the S corporation status.

Returns Filed

For the 1999 income year, 156,629 corporations filed as S corporations, an increase of 1.6 percent over 1998. Of those returns filed for 1999, 62.6 percent had state net income. S corporations with negative income accounted for 37.4 percent of the total returns filed, reporting \$4.4 billion in losses.

Accounting Periods

For the 1999 income year, 95.4 percent of S corporations reporting state net income filed returns with an accounting period ending December 31.

Income and Deductions

S corporations reported nearly \$192 billion in total income for 1999. This amount was a combination of gross receipts (\$461 billion) less the cost of goods sold (\$297 billion) plus other income, which totaled over \$27 billion. Total

S Corporations: State Net Income and Loss History

deductible expenses were nearly \$155 billion for 1999. The largest single expense was for the category of “other deductions” at \$57 billion, followed by “salaries and wages” at \$45 billion and “compensation of officers” at \$15 billion.

Apportionment of Income

For 1999, the number of S corporations with apportioned multi-state or multi-national activity was 11,408, compared to 11,319 in 1998, a 0.8 percent increase. The state net income after apportionment was \$5.2 billion, compared to \$4.9 billion in 1998, a 6.1 percent increase. California property valuation totaled \$34 billion for all apportioning S corporations (excluding banks and other financial corporations), which

represented 32.8 percent of the total property value for apportioning S corporations. California wages and salaries amounted to \$16 billion, or 33.1 percent of total payroll. California sales amounted to \$77 billion or 30.7 percent of total sales. The net effect of these factors for S corporations was an average apportionment of 31.9 percent of the unitary income to California. This compared to 23.7 percent in 1998.

Total Tax Liability

For income years ending in 1999, the amount of total tax from S corporation taxpayers was over \$454 million, which was an increase of 11.5 percent over 1998. Of the \$454 million in total tax, the services sector accounted for nearly \$134

million in tax for income years ending in 1999. This, the largest portion of taxes paid by a single sector, represented 29.4 percent of total S corporation tax liability, and represented 67,752 tax returns, or 43.2 percent of the total number of S corporation tax returns filed. The trade industry accounted for nearly \$100 million in tax, which represented 21.9 percent of total S corporation tax liability, and 34,862 tax returns, which represented 22.3 percent of S corporation returns filed. The next highest amounts of tax were generated by the finance, insurance and real estate industry, and the manufacturing sector. The finance, insurance and real estate industry accounted for more than \$77 million in tax, or 17.1 percent of total tax liability, and 19,923 tax

returns, or 12.7 percent of S corporation returns filed. The manufacturing sector accounted for over \$73 million in tax, which represented 16.2 percent of total tax, and 13,770 returns, or 8.8 percent of the S corporation tax returns filed.

Estimated Tax

S corporations paid \$329 million in 1999 estimated tax payments, compared to \$288 million in 1998, a 14.2 percent increase.

Overpayments and Final Payments

37,895 S corporations had overpayments totaling over \$113 million, a 24.8 percent increase in the amount of overpayments from the prior year. These overpayments were either applied to the

Total Tax Liability by Industry

***S Corporations:
Number of
Returns by
Industry***

estimated tax for the following year, applied to another income year's liability, or refunded.

In addition, 53,557 S corporations made final payments of over \$175 million, an increase in final payments of 15.1 percent over the previous year.

Sole Proprietorships

A sole proprietorship is a form of business in which one person directly owns the assets of the business and is directly responsible for its debts, in contrast to a partnership or a corporation.

Because a sole proprietorship is not a separate legal entity, like a partnership or a corporation, it is not itself a taxable entity. The sole proprietor must report income and expenses from the business on the federal Schedule C Profit or Loss

from Business, Form 1040 and on the Business Income or (Loss) line on the Schedule CA, Form 540 for California.

Data Sources

The source of sole proprietorships data is a stratified random sample of personal income tax returns filed during the 2000 filing season. Additional information on this sample is presented in the Personal Income Tax section of this report.

Returns Filed

For the 1999 income year, 2,234,127 returns included a sole proprietorship, an increase of 1.0 percent over 1998. Of those returns filed for 1999, 75.0 percent of total returns reported \$43.1 billion in profit. Sole proprietorships with

***Sole
Proprietorships:
Number of
Returns History***

***Sole
Proprietorships:
Profit and Loss
History***

negative income accounted for 25.0 percent of the total returns filed, reporting \$4.2 billion in losses.

Total Tax Liability

Individuals who owned sole proprietorships paid \$7.7 billion in total tax for the 1999 income year, an increase of nearly 20 percent over 1998.

Tax Rates

Sole proprietorships are taxed at the same rates as individuals. See Tables 1A-1C in Appendix A for a description of the rates.

Limited Liability Companies (LLCs)

An LLC is a hybrid between a partnership and a Corporation that combines the “pass-through” treatment of a partnership with the limited liability accorded to corporate shareholders. If an LLC elects to be taxed as a corporation for tax purposes, it must file Form 100 and is subject to the applicable provisions of the Bank and Corporation Tax Law. If an LLC is treated as a partnership for tax purposes, it must file Form 568. Additionally, every LLC that is classified as a partnership or that is treated as a sole proprietorship for California tax purposes is subject to the annual LLC tax as well as a fee based on total income. The annual fee for the

***Sole
Proprietorships:
Total Tax Liability
History***

1999 taxable year was as follows: \$865 if the total income of the LLC from all sources reportable to California for the taxable year was \$250,000 or more, but less than \$500,000; \$2,595 if the total income was \$500,000 or more, but less than \$1.0 million; \$5,190 if the total income was \$1.0 million or more, but less than \$5.0 million; or \$7,785 if the total income was \$5 million or more. To determine the LLC fee, “total income” means gross income plus the cost of goods sold that are paid or incurred in connection with the trade or business of the taxpayer.

Data Sources

The LLC data presented in this section are derived From FTB’s Business Entities Tax System, which includes information from all Bank and Corporation, Partnership, and LLC tax returns.

Returns Filed

For the 1999 income year, 61,881 LLC returns were filed. This represented a 41% increase over 1998. 59% reported profit, totaling nearly \$30 billion; 41% reported losses totaling almost \$12 billion.

Tax Recieved

LLCs paid almost \$50 million in taxes for the 1999 income year. They also paid \$86 million in fees.

Tax Rates

An LLC that is classified as a corporation for California tax purposes is subject to the same tax return and tax payment requirements as any other corporation. LLCs that are classified as partnerships or that are treated as sole proprietorships are subject to the annual LLC tax of \$800 as well as a fee based on total income.

Partnerships, LPs and LLPs

Every partnership that engages in a trade or business or has income from a California source must file a California return. Regardless of where the trade or business of the partnership is conducted, a partnership is considered to be doing business in California if any of its partners (general or limited) or other agents are conducting business in California on behalf of the partnership. All partnerships file Form 565.

An electing large partnership that completes federal Form 1065-B, U.S. Return of Income for Electing Large Partnerships, must still use Form 565. California does not conform to the electing large partnership provisions of federal law.

Both foreign and domestic Limited Partnerships (LPs) and Limited Liability Partnerships (LLPs) doing business in California or having a certificate on file or registered with the California Secretary of State (SOS), whether or not doing

business in California, must file a return and pay the annual tax of \$800.

Data Sources

Data appearing in this report are derived from FTB's Business Entities Tax System. This file includes data from all 1999 partnership returns.

Returns Filed

For the 1999 income year, 201,427 returns filed as partnerships, a decrease of 3.9 percent over 1998. Of those returns filed for 1999, 30 percent of total returns reported almost \$53 billion in profit. Partnerships with negative income accounted for 70 percent of the total returns filed, with nearly \$22 billion in losses.

Minimum Tax

Partnership income is not taxed. LPs and LLPs pay an \$800 minimum tax and their income, credits, and deductions flow through to the partners who are liable for any tax. Partners may be individuals, corporations, other partnerships, tax-exempt organizations, nominees, or other legal entities.

Estates and Trusts

The personal income tax law applies to the income of estates and to property held in trust, whether the income is accumulated or distributed.

In the case of estates, if the decedent was a resident of California at the time of death, all of

the estate's net income is taxable, regardless of source. If the decedent was a nonresident, only income of the estate from California sources is taxable, unless income is distributed to California beneficiaries.

In the case of a trust, taxability depends on the residence of the fiduciaries and beneficiaries. If either the fiduciary or the beneficiary is a California resident, all of the income, regardless of source, is taxable. However, all of the income derived from sources within California and not distributable is taxable to the trust irrespective of the residence of the trustees or the beneficiaries. If either the trustee or the non-contingent beneficiary is resident, the trust is taxable on all income from all sources that is not currently distributable. Form 541 is used to report the tax information of estates and trusts.

Data Sources

Data appearing in this report are based on a stratified random sample of fiduciary returns. The sample includes all estate and trust returns with adjusted total income greater than or equal to \$1,000,000 or income distribution deduction greater than or equal to \$500,000. For other estate and trust returns, the sample is stratified according to the amount of adjusted total income and income distribution deduction as reported on Form 541.

Returns Filed

In 1999, nearly 250,000 Estates and Trusts filed returns in California. Simple Trusts accounted for 70% of those returns, followed by Complex Trusts at 13%, and Decedent Estates and Grantor Type Trusts at 8% each. Simple trusts reported the majority of total income, deductions, and tax liability reported by all estates and trusts, accounting for 73% of gross income, 69% of total deductions and 79% of the total tax liability.

Total Tax Liability

Estates and Trusts paid \$379 million in tax in 1999.

Income and Deductions

Estates and Trusts reported over \$12.0 billion in total income for 1999. The largest single source of income was capital gains at nearly \$5.4 billion, followed by rents, royalties, and partnerships at \$2.0 billion, and dividends at over \$1.8 billion. Total deductions were over \$2.7 billion for 1999, led by "miscellaneous deductions" at nearly \$1.7 billion, followed by fiduciary fees at \$285

million, charitable contributions at \$268 million, and professional fees at \$259 million.

Tax Rates

The tax rates for estates and trusts are the same as for single individuals.

Fiduciary Final Returns by Entity Type

Exempt Organizations

Certain organizations, both incorporated and unincorporated, are exempt from corporate tax. These exempt organizations are organized and operated for nonprofit purposes and have been granted exempt status under the law. They include churches, charitable and educational organizations, civic leagues, social clubs, fraternal societies, state-chartered credit unions, homeowner associations and others.

Churches or religious orders and organizations with gross receipts normally less than \$25,000 are not required to file returns. However, other private foundations are required to file returns even if gross receipts are less than \$25,000.

Those organizations required to file must file one or more of the following: Form 199, Exempt Organization Annual Information Statement or Return; Form 100, California Franchise or Income Tax Return; or Form 109, Exempt Organization Business Income Tax Return. For 1999, based on the Business Entities Tax System, there were a total of 147,118 active exempt organizations, of which 76,814 filed returns.

Tax Rate

Unrelated business income of exempt organizations is subject to California corporation income tax, rather than franchise tax. The tax rate on such income is the same as for non-exempt organizations.

Homeowner and Renter Assistance

Introduction

Since 1968, California has provided relief to senior citizens in the form of property tax assistance. Legislation effective for the 1972 program reduced the minimum age requirement from 65 years to 62 years. In 1977, the program was extended to renters and was based on a property tax equivalent amount estimated to be paid by renters. Beginning in 1979, eligibility for totally disabled homeowners and renters, regardless of age, was added to the program. For the 1999 claim year, the program increased the limitations on total household income from \$13,200 to \$33,132 and gross household income from \$24,000 to \$60,240.

Indexing increased the allowable limitations on total household income from \$33,132 to \$33,993 and gross household income from \$60,240 to \$61,806 for the 2000 claim year. Legislation also requires the department to make subsequent annual adjustments to the income limitation based on the California Consumer Price Index before February 1st of each year.

The eligible claimant population rose from 384,122 individuals in 1999 to 633,544 individuals in 2000. In addition, the total amount of assistance increased from nearly \$70.0 million in 1999 to nearly \$309.4 million in 2000. This large growth resulted from legislation that provided a one-time increase of 150% in HRA payments for the 2000 calendar year.

Program Summary

The 2000 assistance amount represented a partial reimbursement of the 1999/2000 fiscal year's residential property taxes on personal residences paid directly by homeowners and indirectly by renters. For renters, a payment of \$250 in property tax was assumed. To be eligible for assistance, a claimant's total household income from all sources for the prior calendar year could not exceed \$33,993.

Relief for homeowners and renters is based on a certain percentage of the property tax or the tax equivalent for renters. This percentage varies inversely to the applicants' income levels and ranges from 4 percent to 96 percent of the property tax claimants paid on the first \$34,000 assessed value of their home. For the 2000 claim year, claimants for the Homeowner and Renter Assistance Program had a one-time 150% increase of payments. Qualified homeowners can

receive from \$34 to \$816, up from the standard \$13.60 to \$326.40 payments. Renters can receive assistance from \$25 to \$600, up from \$10 to \$240. The income measure is total household income, which consists of adjusted gross income (as computed for tax purposes) increased by nontaxable income including Social Security, public assistance, pensions and annuities (not otherwise taxable), unemployment compensation, tax-exempt interest, life insurance proceeds, gifts in excess of \$300 and worker's compensation payments.

Usually, Homeowner and Renter Assistance claims may be filed any time after May 15 through August 31. In addition, the Franchise Tax Board accepted claims through June 30 of the year following the claim year for which assistance was requested. To claim assistance, homeowners must file Form 9000, Homeowner

Assistance Claim, and renters must file Form 9000R, Renter Assistance Claim.

During 2000, 633,544 qualified homeowners and renters received almost \$309.4 million in residential property tax assistance through the program. This represented a 342.1 percent increase in assistance paid and an 64.9 percent increase in the number of claimants from the previous year. This increase was due to the one-time 150% increase of assistance payment in 2000 claim year. For those receiving assistance, the average household income was \$11,984. The average assistance payment for 2000 was \$488 versus \$182 in 1999.

Homeowner Assistance

Homeowners filed 24.6 percent of the claims and received nearly \$58.4 million through the assistance program, or 18.9 percent of the total amount paid. For those receiving assistance, the average household income for homeowners was \$17,829. The average assistance was \$374.

Those homeowners with income of \$5,000 and below accounted for 3.0 percent of homeowner claimants and 5.4 percent of the total amount of homeowner assistance (Appendix D, Table 2). Those with incomes of less than \$25,000 accounted for 79.6 percent of homeowner claimants and 96.7 percent of the total amount of homeowner assistance.

The counties with the highest average homeowner's assistance paid per household in 2000 were Fresno County with \$406, Calaveras County with \$405, and both Kings County and Lake County with \$399. The number of claimants in these counties was 4,738 in Fresno County, 345 in Calaveras County, 551 in Kings

County, and 949 in Lake County. In contrast, the average homeowner's assistance paid per household in 2000 to claimants in Los Angeles County was \$394 with 38,786 claimants and a total amount of assistance for that county of over \$15.3 million. For further information, see Appendix D, Table 4.

Renter Assistance

Renters made up the majority of the program participants by filing 75.4 percent of all claims. Renters received \$251.0 million through the assistance program, representing 81.1 percent of the total amount paid. The average household income of renters was \$10,072. The average assistance was \$526.

Renters with income of \$5,000 and below accounted for 8.1 percent of renter claimants and 9.0 percent of total amount of renter assistance (Appendix D, Table 6). Those with income of less than \$25,000 accounted for 97.6 percent of renter claimants and 99.8 percent of total amount of renter assistance.

The counties with the highest average renter's assistance paid per household in 2000 were Yuba County, Fresno County, and Kern County with \$548. The number of claimants in these counties was 1,407 in Yuba County, 16,565 in Fresno County, and 12,901 in Kern County. In contrast, the average renter assistance paid per household in 2000 to claimants in Los Angeles County was \$523 with 166,512 claimants and a total amount of assistance for that county of more than \$90.2 million. For further information, see Appendix D, Table 8.

Legislation

Personal Income Tax and Bank and Corporation Tax Law Changes

The following significant legislation was enacted in 2000. This section describes each bill as it affects various portions of the Revenue and Taxation Code administered by the Franchise Tax Board (FTB).

References to the R&TC are to the Revenue and Taxation Code. References to PITL are to the Personal Income Tax Law. References to B&CTL are to the Bank and Corporation Tax Law. References to the AFITL are to the Administration of Franchise and Income Tax Law. References to IRC are to the Internal Revenue Code.

Unless otherwise stated, all legislation was effective for taxable years beginning on or after January 1, 2000.

AB 713 Clean-up/BOE Appeals/Deficiency Assessments & Statute of Limitations

AB 463 (Chapter 183)

Under this FTB sponsored act:

- a taxpayer who is protesting a proposed deficiency is allowed to include in the protest a request for abatement of certain related interest;
- if the taxpayer does not include the request for abatement of interest in the original protest but later appeals FTB's adverse action on the protested proposed deficiency, the taxpayer then is required to include the request for abatement of that interest with the appeal of the underlying proposed deficiency. The taxpayer cannot make a separate request for abatement of interest or appeal a denial thereof;
- if the taxpayer does not protest or appeal FTB's adverse action on the underlying proposed deficiency and is only:

- 1) appealing FTB's adverse action on a request to abate that interest; or
- 2) requesting an abatement of the interest that accrued between the time the deficiency was final and FTB issued its notice of tax due,

then the time for filing an appeal to the Board of Equalization (BOE) is reduced from the present 180 days to the more customary 30 and 90 days, depending upon whether the request for interest abatement is related to unpaid or paid interest; and

- if the taxpayer does not protest or appeal the underlying proposed deficiency and FTB does not respond to the taxpayer's request for abatement of certain interest within six months, taxpayers will treat a request for abatement of interest as deemed denied. In that case, the taxpayer may file an appeal within the above time frames.

This act was operative for requests for abatement of interest and appeals made on or after January 1, 2001.

Research Expense Credit/Increase Alternative Incremental Credit

AB 465 (Chapter 103)

This act increased the state alternative incremental research expense credit to 85% of the prior federal credit amount, instead of the existing 80%.

This act was chaptered out by AB 511.

Household and Dependent Care Services Necessary for Gainful Employment Refundable Credit

AB 480 (Chapter 114)

This act allowed taxpayers with an adjusted gross income (AGI) of \$100,000 or less a refundable credit equal to a percentage of the federal credit allowed for certain household and dependent care services necessary for gainful employment.

This act was effective immediately upon enactment and was operative for taxable years beginning on or after January 1, 2000.

Administrative Procedures/Small Business Regulatory Reform Act of 2000/State Agencies Adopting Regulations

AB 505 (Chapter 1059)

Under the Administrative Procedures Act within the Government Code, this act made various changes to the laws governing regulatory procedures, including requiring each state agency to establish a small business liaison.

This act was effective and operative January 1, 2001.

Research Credit/Increase Qualified Expense to 15% & Alternative Incremental Expense to 90% of Federal/Long-Term Care Caregiver Credit/Exclusion/Education Assistance/Graduate Courses/NOL Deduction Carryover/65%/Allowed for 10 Years

AB 511 (Chapter 107)

This act:

- modified the research credit to increase the state credit for “qualified research expenses” from 12% to 15% and increased the state alternative incremental research expense credit to 90% of the prior federal amount, instead of the existing 80%.
- allowed taxpayers who are eligible caregivers a \$500 non-refundable credit for each applicable individual to whom they provide long-term care. An applicable individual may be the taxpayer, spouse of the taxpayer, or qualifying (under this act) dependent who has been certified to have long-term care needs.
- allowed an employee to exclude from gross income the amount that an employer pays or incurs, up to \$5,250, for the employee to take graduate level courses in pursuit of a law, business, medical, or another advanced academic or professional degree.
- incrementally increased the general net operating loss (NOL) deduction carry forward amount under both the PITL and the B&CTL from 50% to 65% and increased the NOL carry forward period from five years to 10 years.

This act was effective upon enactment and unless otherwise stated, was operative for taxable years beginning on or after January 1, 2000.

Exclusion/Interest Received from Smog Impact Fee Refunds**AB 809 (Chapter 31)**

This act excluded from the gross income of taxpayers who were not allowed to deduct the vehicle smog impact fee any interest paid by the state in conjunction with the refund of the smog impact fee.

As an urgency statute, this act was effective upon enactment and applied to taxable years beginning on or after January 1, 2000.

Confidentiality/Taxpayer Communications**AB 1016 (Chapter 438)**

This act entitled a taxpayer to the same protections of confidentiality for communications with respect to the tax advice given by any federally authorized tax practitioner as the taxpayer has for communications if the advising individual were an attorney. The privilege applies in any noncriminal tax matter before FTB. The privilege sunsets January 1, 2005, unless subsequent legislation extends that date.

This act also provided similar protections for communications between a taxpayer and a federally authorized tax practitioner in any noncriminal tax matter before the BOE or Employment Development Department (EDD).

This act was effective January 1, 2001, and will be repealed January 1, 2005. It applies to communications made on or after January 1, 2001.

Teacher Retention Refundable Credit/Calculation of Amount of Credit**AB 1080 (Chapter 603)**

This act simplified the method of determining tax imposed on a teacher's salary for purposes of the credit limitation contained in the credentialed teacher tax credit as enacted by AB 2879 (Stats. 2000, Ch. 75).

This act was effective January 1, 2001, and applied to taxable years beginning on or after January 1, 2000.

Child Support Enforcement/Conforming Changes to Entities Authorized to Enforce Collection**AB 1358 (Chapter 808)**

This act, in general, made numerous changes of a technical nature to various California Codes relating to child support enforcement. The changes were necessary to accommodate California's new child support enforcement organizational structure enacted last year, effective on January 1, 2000. In general, as it affects the laws administered by FTB, this act replaces the references to "district attorney" (DA) with "local child support agency" (local agency) and "Department of Social Services" with "Department of Child Support Services" (DCSS), the successor agency and successor department, respectively.

Additionally, this act corrected certain provisions where the new organizational structure and related statutory references inadvertently eliminated the authority for DAs, local agencies or DCSS to conduct the intended

child support enforcement activities within these organizational structures.

This act was an urgency statute effective and operative immediately upon enactment.

Low-Income Housing Credit/Increase Maximum Aggregate Amount to \$50,000,000 for Calendar Year 1999 and Each Calendar Year Thereafter

AB 1626 (Chapter 3)

This act increased the aggregate allocation amount for the low-income housing credit to \$50 million for each calendar year after 1999.

As a tax levy, this act was effective immediately upon enactment and applied to each calendar year after 1999.

Exclusion/Reparation Payments Received from German Foundation Known as Remembrance, Responsibility, and the Future

AB 1728 (Chapter 685)

Under the PITL, this act excluded from gross income any amounts received as reparation payments paid by the German Foundation known as Remembrance, Responsibility, and the Future, or from any other source of humanitarian reparations, to redress the injustice done to persons who were required to perform slave or forced labor during World War II.

This act was effective immediately upon enactment and was operative for taxable years beginning on or after January 1, 2000.

NOL Deduction Carryovers/55% for Taxable Years on or After 1/1/200 & Before 1/1/2002 & 60% for Taxable Years on or After 1/1/2002/Allowed for 10 Years

AB 1774 (Chapter 104)

This act incrementally increased the NOL deduction carryforward amount under both the PITL and the B&CTL.

The amount increased from 50% of the total NOL for taxable years beginning before January 1, 2000:

- to 55% for taxable years beginning on or after January 1, 2000, and before January 1, 2002; and
- to 60% for taxable years beginning on or after January 1, 2002.

Additionally, this act increased the period to carry forward an NOL from the current five years to 10 years for all NOLs generated for taxable years beginning on or after January 1, 2000. The act retained current preferential NOL treatment for new and small businesses.

This act was chaptered out by AB 511.

California Internet Tax Freedom Act/Extends Repeal Date to January 1, 2005

AB 1784 (Chapter 618)

This act extended the expiration date of the California Internet Tax Freedom Act to January 1, 2005. This act was tied to AB 2412 and would have become operative only if AB 2412 was enacted and became effective on or after January 1, 2001. Since the Governor vetoed AB 2412 on September 24, 2000, this act did not become operative. Thus, the California Internet Tax Freedom Act will be inoperative on January 1, 2002.

Exclusion/Indemnification Received by Erroneously Convicted Persons

AB 1799 (Chapter 630)

Under the Penal Code, this act amended existing law that requires the state Board of Control (BOC), where an individual has been erroneously convicted and incarcerated for a crime, to recommend to the Legislature that the

individual be appropriated an amount for the injury. This act specified that the BOC is required to recommend an appropriation of \$100 a day, rather than the current amount of up to \$10,000.

Under both the Penal Code and the R&TC, this act provided that the appropriation will not be treated as gross income to the recipient under the PITL.

This act was effective January 1, 2001, and applied to taxable years beginning on or after that date.

Farmworker Housing Credit

AB 1811 (Chapter 311)

Under the PITL and the B&CTL, this act made changes to the farmworker housing credit for construction and rehabilitation of qualified farmworker housing. Specifically, this act:

- made the farmworker housing credit subject to the allocation limitations under the federal low-income housing credit;
- allowed the farmworker housing credit to be claimed when the building is placed in service (or sooner under certain conditions), rather than requiring the credit to be claimed when the farmworker housing is occupied; and
- allowed the taxpayer to request certification after paying or incurring costs, rather than requiring certification first.

This act was effective immediately upon enactment and was operative for taxable years beginning on or after January 1, 2000.

Administrative Procedure Act/State Agency Regulations

AB 1822 (Chapter 1060)

Under the Administrative Procedure Act in the Government Code, this act made various changes to the rulemaking process.

This act was effective and operative on January 1, 2001.

Eliminate Reference to “Income Year” in the Income Tax Law

AB 1843 (Chapter 854)

This FTB sponsored act replaced the references to “income year” with “taxable year” in all provisions of the B&CTL, the AFITL and the PITL, eliminating the complex and unnecessary “income year” concept.

This act was effective January 1, 2001, and applied to taxable years beginning on or after January 1, 2000.

National World War II Veterans Memorial

AB 2212 (Chapter 577)

Under the AFITL, this act allowed individual taxpayers to designate a contribution on the state tax return to a newly created National World War II Veterans Memorial Trust Fund.

This act was effective and operative on January 1, 2001.

Court Ordered Debt Pilot/Reduces Minimum Fine for Referral to FTB to \$100

AB 2371 (Chapter 545)

Under this act, the dollar threshold for restitution fines that are referred to FTB by the BOC for the FTB court-ordered debt (COD) collection program are lowered from \$250 to \$100. These referrals to FTB are limited based on the current

(computer system) capacity of FTB. These referrals to FTB are implemented as a pilot project, subject to approval of the Director of the Department of Finance.

This act was effective and operative on January 1, 2001.

HRA Appropriation

AB 2416 (Chapter 615)

This act appropriated an additional \$60 million for the Homeowners and Renters Assistance (HRA) program, thus providing additional funds to cover the one-time increase of 150% in HRA payments for low-income seniors and disabled individuals for the 2000 calendar year as enacted by SB 1664 (Stats. 2000, Chapter 60).

As an urgency statute, this act was effective upon enactment.

Public Record Disclosure/Make Available in Electronic Format if Available & When Requested

AB 2799 (Chapter 982)

This act required any state or local agency that had public information in an electronic format to make that information available to the public in the electronic format in which the state agency holds the information. The requester pays the direct cost of duplicating the public record in an electronic format.

This act further required a public record to be disclosed if, on the facts of the particular case, the public interest is served by disclosing the record.

This act was effective January 1, 2001, and operative for all public record act requests made after that date.

Long-Term Care Caregiver Credit

AB 2871 (Chapter 105)

This act provided for a \$500 non-refundable credit to taxpayers who are eligible caregivers for each applicable individual in need of long-term care. An applicable individual may be the taxpayer, spouse of the taxpayer, or a qualifying dependent, as defined, who has been certified to have long-term care needs. The credit will not be allowed to married couples filing a joint return with AGI of \$100,000 or more and \$50,000 or more for all other individuals.

This act was chaptered out by AB 511.

Health and Welfare Programs/Child Support/EDD Coordinate with FTB and Other Agencies in Developing Economic and Workforce Information

AB 2876 (Chapter 108)

This act made various changes to health and welfare programs. In addition, this act established the California Workforce and Economic Information Program that will require EDD to coordinate with specified governmental agencies, including FTB, in developing economic and workforce information.

This act, as an urgency statute, was effective and operative upon enactment.

Teacher Retention Tax Credit

AB 2879 (Chapter 75)

This act allowed a credit for credentialed teachers based on their years of service as a credentialed teacher. The credit is capped at 50% of the income attributable to teaching. The credit amount ranges from \$250 for teachers with four years of service to \$1,500 for 20 years of service.

This act was effective upon enactment and was operative for taxable years beginning on or after January 1, 2000.

Information Returns/Returns of Individuals and Fiduciaries/Interest on Unpaid Tax and Deficiencies

AB 2892 (Chapter 863)

This FTB sponsored act added, amended, renumbered, and repealed various sections of the R&TC to conform more closely to the language and structure of the IRC. These changes consolidated provisions, deleted obsolete provisions, and revised language for clarification pertaining to filing requirement thresholds, filing status, and assessment of interest.

This act was effective January 1, 2001. Provisions affecting the imposition or computation of tax, additions to tax, penalties, or the allowance of credits were operative for taxable years beginning on or after that date. Other provisions were operative on and after January 1, 2001.

Partial Conformity of Exempt Law to Federal Law

AB 2893 (Chapter 252)

This FTB sponsored act eliminated California's "stand alone" R&TC sections relating to exempt organizations and conformed "by reference" to the IRC sections relating to exempt organizations. The net effect is no change to the present California exempt terms and concepts.

This act was effective and operative on January 1, 2001.

Local Agency Military Base Recovery Area & Manufacturing Enhancement Area Employer Hiring Credit Vouchering Requirement

AB 2895 (Chapter 864)

This FTB sponsored act amended the Local Agency Military Recovery Areas and the Manufacturing Enhancement Areas hiring credit statutes to be consistent with the existing Enterprise Zone and Targeted Tax Area statutes to require taxpayers to obtain a voucher for new employees as a condition for claiming those credits.

This act was effective January 1, 2001, and specified that it applied to qualified disadvantaged individuals and qualified displaced employees hired on or after January 1, 2001.

Deficiency Assessments

AB 2896 (Chapter 414)

This FTB sponsored act allowed the FTB to continue its current practice of using tax returns (either paper or electronic) or information electronically captured from tax returns to make deficiency determinations. If a tax return or electronically captured return information has been destroyed or cannot be located after reasonable effort by FTB, the taxpayer is notified and has at least 30 days to provide a paper or electronic copy of the tax return to FTB. Additionally, FTB is required to provide a statement in tax booklets informing taxpayers that they may be requested to furnish FTB with a copy of the California or federal tax returns that are the subject of or related to a federal audit.

This act was effective on January 1, 2001, and expressly applied to notices of proposed deficiency assessments issued on or after January 1, 2001.

Amend Corporations Code to Reference Correct R&TC Section/Interest on Erroneous Refunds/Delete Provisions Added in Error/Technical Change to Correct Reference to “Subsection” to “Subdivision”

AB 2897 (Chapter 415)

Under the R&TC and the California Corporations Code, this FTB sponsored act made the following changes:

- corrected the reference to a renumbered section regarding the imposition of the \$50 penalty for any corporation which fails to file a statement with the Secretary of State;
- clarified that interest on erroneous refund amounts begin to accrue 30 days from the date of notice and demand for repayment and deletes a reference on how interest will accrue for corporations on amounts that were erroneously made or allowed when an action is brought to court; and
- replaced incorrect references to the term “subsection” with the term “subdivision.”

This act was effective and operative on January 1, 2001.

Privacy Protection Office/Personal Information Collection & Disclosure

SB 129 (Chapter 984)

This act required each state department and state agency to enact and maintain a permanent privacy policy in adherence with the Information Practices Act of 1977.

This act also created the Office of Privacy Protection under the direction of the Director of the Department of Consumer Affairs, the Secretary of State, and Consumer Services Agency.

This act was effective and operative on January 1, 2001.

Exemption/Alien Corporation Qualifying Investment Stock or Security Income/Doesn’t Apply to Corporations in Unitary Business

SB 1239 (Chapter 4)

This act provided that income, gain, or loss from stocks or securities received by an alien corporation, as defined, whose sole activity in this state is derived from trading stocks or securities for its own account, as defined under federal law, will not be treated as income derived from California sources and that the alien corporation will not be considered as doing business in this state.

As a tax levy, this act was effective upon enactment and operative for taxable years beginning on or after January 1, 1999.

Court Ordered Debt/FTB May Limit to 17 Counties/ Address Disclosure to Law Enforcement

SB 1310 (Chapter 940)

This act:

- extended for one year, until January 1, 2003, the termination (sunset) of the COD collection pilot program administered by FTB;
- required FTB to address in its report that is due to the Legislature on or before April 1, 2001, the feasibility and advisability of expanding the COD collection program to accept referrals from all 58 counties;

-
- required the Department of Justice (DOJ), in consultation with FTB and other specified state entities, to examine ways to enhance the use and effectiveness of the Controller's offset program, which is administered by the FTB through integration with the DOJ's Wanted Persons System, and require that DOJ report to the Legislature on or before January 1, 2002;
 - required the DOJ, in consultation with FTB, to examine ways to enhance the use and effectiveness of FTB's COD collection program through integration with the DOJ's Wanted Persons System and report to the Legislature on or before January 1, 2002; and
 - required any state or local governmental agency, including the FTB, to provide to the DOJ, to a court, or to a California law enforcement agency the address of any person represented to be a person for whom there is an outstanding arrest warrant.

This act was effective and operative on January 1, 2001.

Manufacturing Enhancement Area Employer Hiring Credit/Allow Expansion of Area & Include Agricultural Production as Business Eligible for Credits

SB 1445 (Chapter 865)

This act provided for the expansion of a manufacturing enhancement area (MEA) in Imperial County by no more than 200 acres upon approval by the Trade and Commerce Agency.

In addition, this act expanded the definition of "qualified taxpayer" in the MEA hiring credit to include taxpayers engaged in certain agricultural business activities as defined in the Standard Industrial Classification Manual, 1987 edition.

This act was effective January 1, 2001, and operative for taxable years beginning on or after that date.

2000 Natural Heritage Preservation Tax Credit Act

SB 1647 (Chapter 113)

This act enacted the Natural Heritage Preservation Tax Credit Act of 2000 within the Public Resources Code and establishes tax credits within the R&TC.

This act allowed a tax credit to taxpayers who donate real property to the state, approved local governments, or approved nonprofit organizations designated by the state or local government. The amount of tax credit equals 55% of the fair market value of the qualified contribution that has been approved for acceptance by the Wildlife Conservation Board.

As an urgency statute, this act was effective upon enactment and applied to a qualified contribution made on or after January 1, 2000, and before December 31, 2005.

HRA/One-Time 150% Increase

SB 1664 (Chapter 60)

This act provided a one-time increase of 150% in HRA payments for low-income seniors and disabled individuals for the 2000 calendar year.

This act also moved the filing date of the claims for assistance from May 15 through August 31 to July 1 through October 15. In addition, it extended the dates by which the state assists the claimants from June 30 and before October 31 to July 15 and before November 15 of the calendar year in which the claim is filed.

As an urgency measure, this act was effective upon enactment and applied to claims filed for the calendar year beginning January 1, 2000.

**Prohibit Disclosure of Information By Tax Preparers
& Prohibit FTB to Approve Filing Requiring Consent
to Disclose Specified Information**

SB 1724 (Chapter 1084)

Under the R&TC, this act prohibited the FTB from approving electronic filing software or electronic tax forms that require taxpayers to consent to the disclosure of information as a condition of access to that software or those forms.

Under the Business and Professions Code (B&PC), this act:

- expanded criminal sanctions for disclosures of tax return information by businesses that prepare returns by adding disclosures made either within the tax-preparing firm (for purposes other than tax preparation) or to subsidiaries or affiliates of the tax-preparing firm.
- added filing an income tax return electronically to the list of activities that defines persons engaged in the business of preparing tax returns or assisting in the preparation of tax returns.
- allowed the written consent for disclosure to be done electronically with an electronic signature.
- modified the definition of “tax preparers” to include persons who, for consideration other than a fee, prepare tax returns for another person.
- made each violation of the criminal provisions regulating the practice of tax preparers a separate offense.
- specified that tax return information includes information obtained through an electronic medium.

Under the Civil Code, this act established a civil penalty for disclosure of tax return information provided by a consumer in connection with financial or business-related transactions. This consumer protection penalty is based on the taxpayer protection penalty under the B&PC.

The B&PC and Civil Code provisions do not directly impact the programs administered by FTB.

This act was effective January 1, 2001.

**FTB Offset Refunds or Lottery Winnings for Civil
Penalties for Prescribing Dangerous Drugs on
Internet**

SB 1828 (Chapter 681)

This act required FTB to subtract certain fines or civil penalties from tax refunds or lottery winnings due certain taxpayers/defendants. FTB makes such offsets upon notification by the Attorney General (AG), the Medical Board of California, or the Pharmacy Board of California of a final judgment for fines or civil penalties for specified violations relating to prescribing, dispensing, or furnishing dangerous drugs or devices via the Internet.

This act was effective on January 1, 2001, and operative for notifications made on or after January 1, 2002.

California Lung Disease and Asthma Research Fund

SB 1932 (Chapter 818)

Under the AFITL, this act allowed taxpayers to designate a contribution on the state income tax return to the California Lung Disease and Asthma Research Fund.

This act was effective and operative on January 1, 2001.

California Commission on Tax Policy in the New Economy/FTB Executive Officer, BOE, EDD, DOF, and Controller Members on Commission

SB 1933 (Chapter 619)

This act established the California Commission on Tax Policy in the New Economy to develop a long-term strategy for revising the state and local tax structure in California.

This act was effective and operative on January 1, 2001, and will be repealed on January 1, 2004.

Charitable Fundraising

SB 2015 (Chapter 475)

This act created several new provisions applicable to a charitable corporation or trustee, commercial fund-raiser, fundraising counsel, or coventurer (charitable organization). It establishes new fees and civil penalties to be applied in the case of specified violations of the Uniform Supervision of Trustees for Charitable Purposes Act (the Act).

This act allowed the Attorney General (AG) to refuse to register a charitable organization or to revoke or suspend a charitable organization if that entity violates any provision of the Act.

This act was effective and operative on January 1, 2001.

Levy on Trade or Business Property/Taxpayer Bill of Right Technical/Minimum Tax Relief for Inactivity/Child Care Refundable Credit

SB 2170 (Chapter 647)

This act made several technical amendments to the laws administered by FTB, such as:

- clarified that trade or business property may not be levied by FTB unless the levy is approved by FTB's assistant executive officer

or FTB finds that collection of the tax is in jeopardy.

- corrected an error inadvertently created by SB 1229 (Stats. 1999, Ch. 987) and carries out the intent of SB 1229 by providing relief from the annual limited partnership tax for specified limited partnerships.
- provided that adjustments made by FTB to the amount claimed by a taxpayer under the refundable child and dependent care credit law will be treated by FTB as a math error correction, but the taxpayer will be allowed the right to protest and appeal FTB's adjustment.

This act was effective and operative on January 1, 2001. The limited partnership provision was operative retroactively to taxable years beginning on or after January 1, 1997, which is consistent with the operative date for SB 1229.

Assignment of Lottery Winnings/Tax Exempt

SB 2173 (Chapter 180)

This FTB sponsored act clarified that amounts received by a California lottery prizewinner from another person as a result of the assignment (transfer) by the prizewinner of the right to receive future lottery winning payments are exempt from state and local taxes.

This act was effective on January 1, 2001, and was declaratory of existing law.

California Firefighters' Memorial Fund & Peace Officer Memorial Foundation Fund/Estimated Contributions

SB 2175 (Chapter 854)

Under the AFITL, this act specified that the \$250,000 minimum contribution limitation applies to the California Peace Officer Memorial Fund and the California Firefighters' Memorial

Fund only if the repeal date is deleted for each fund.

This act was operative for taxable years beginning on or after January 1, 2000, for returns filed in 2001 and thereafter.

Rulings

During 2000, the Franchise Tax Board published one Legal Ruling on the following subject:

- The extent to which capitalized labor costs paid or incurred by a qualified taxpayer to a third-party contractor for the construction, modification or installation of qualified property constitute qualified costs for purposes of the Manufacturers' Investment Credit.

During 2000, the Franchise Tax Board published a number of FTB Notices discussing a variety of subjects including:

- Announcement of a public hearing regarding adjustment of the limited liability company fee and announcement of the revised limited liability company fee;
- Announcement of instructions and addresses for corresponding with the Settlement Bureau;
- Guidance for taxpayers needing to request changes in accounting periods or methods;
- Guidelines that Franchise Tax Board staff would follow in applying Revenue and Taxation Code Section 24344, subdivision (b), following the United States Supreme Court's decision in *Hunt-Wesson* that generally invalidated the interest offset rules;
- A list of significant legislative changes enacted during 2000.

The Franchise Tax Board also announced by FTB Notice a number of regulation and drafting symposiums and requested public comment on a variety of subjects including:

- Symposium to discuss proposed regulations 19041 and 19044 relating to protests and protest hearings;
- Second Symposium to discuss proposed regulations 19041 and 19044 relating to protests and protest hearings, specifically to explore alternative procedures and draft alternative regulatory language;
- Symposium to discuss proposed guidelines for handling interest offset issues following the United States Supreme Court's invalidation of subdivision (b) of Revenue and Taxation Code Section 24344 in *Hunt-Wesson*;
- Symposium to discuss draft regulation 19504 dealing with auditing practices and procedures;
- Announcement of draft regulation 19032 relating to audit procedures.

Tax Appeals

Taxpayers who disagree with the Franchise Tax Board's action on their protest or claim for refund may appeal the decision to the State Board of Equalization (BOE). The Franchise Tax Board's Legal Branch staff is responsible for representing FTB's position.

During 2000, 872 new appeals involving nearly \$83 million were filed, compared with 1,050 new appeals and \$140 million in 1999.

During 2000, 878 appeals were completed, and BOE issued decisions in 501 of the completed cases. Some of the more significant appeal decisions included:

Appeals of Paul B. and Mary A. Milhous, Robert E. and Gail P. Milhous

The State Board of Equalization decided that the payroll, property and sales formula set forth in Revenue and Taxation Code Section 25128 was appropriate for determining the amount of income from a covenant not to compete to be sourced to California under the facts of that case. The Board recognized that this formula may not be appropriate in all situations and noted that the formula could be modified under Revenue and Taxation Code Section 25137 if it produced a gross distortion of income to be assigned to California. The Board reaffirmed that a covenant not to compete is a property right with its situs in the location where such competition would have occurred absent the covenant. The covenant is sourced to the place of abstinence, which is the place where the recipient of the covenant income promised not to act.

Appeal of Helmi A. Hisserich

The State Board of Equalization decided that the taxpayer could claim the minor child born to her domestic partner as her qualifying individual for head of household filing status. The Board's holding was based upon numerous specific facts presented in the case. Whether or not a particular taxpayer will be found eligible for head of household filing status based upon the *Hisserich* decision will depend upon how closely an individual taxpayer's situation matches the specific factors found to be essential in the decision.

Litigation—Filings and Closures

There were 15 actions in the nature of suits for refund that were filed against the department and 24 cases of a similar nature were closed. A total of 13 cases went to a final decision by the

courts, with the Franchise Tax Board being sustained in 9 of those cases. There were 2 final published appellate decisions and 5 final unpublished appellate decisions. The Franchise Tax Board was successful in 5 of the 6 trial court decisions that were not appealed.

Particularly noteworthy decisions included:

Hunt-Wesson, Inc. v. Franchise Tax Board, (2000) 528 U.S. 458. The United States Supreme Court held that the method of assigning interest expense to classes of income provided for in Revenue and Taxation Code Section 24344(b), the "interest offset" rule, did not have a rational basis for purposes of the Due Process Clause of the 14th Amendment and therefore resulted in the taxation of a portion of the income of a non-domiciliary corporation that California had no right to tax or consider.

Hoechst Celanese v. Franchise Tax Board, published at 76 Cal App 4th 912. The California Supreme Court accepted the department's petition for review. As a result, the appellate decision was vacated.

Ceridian Corporation v. Franchise Tax Board, 85 Cal App 4th 875. Revenue and Taxation Code Section 24410 allows California domiciled corporations a deduction with respect to dividends received from 80% or more owned insurance subsidiaries. The deduction is limited to the extent the earnings were derived from California as determined by an apportionment formula provided for in the statute. The court held that the statute discriminated in violation of the Commerce Clause of the United States Constitution both by limiting the deduction to California domiciled corporations and by limiting the deduction based upon activity in California. In addition, the court held that

application of Revenue and Taxation Code Section 19393 could not deny a refund to the taxpayer when the years involved were beyond the normal period of the statute of limitations because of 14th Amendment Due Process concerns.

Citicorp North America, Inc. v. Franchise Tax Board, 83 Cal App 4th 1403. The appellate court ruled that the making of apportionment factor assignments based upon the activities of the unitary business (the *Finnigan* rule), as compared to the activities of each individual entity (the *Joyce* rule), was proper. Citicorp North America was taxable in California. It had a unitary subsidiary, Citibank (South Dakota), which was not taxable in California. Citibank (South Dakota) had credit card customers in California. The decision sustained the assignment of Citibank (South Dakota)'s receipts from California credit card holders as California sales used to determine the amount of California income of the unitary business assigned to Citicorp North America. The court also held that it was proper for the Board of Equalization to determine that the *Joyce* rule would be readopted on a prospective basis under the application of the standards set forth in *Chevron Oil v. Huson* (1971) 404 U.S. 97.

The second issue in *Citicorp North America* involved whether the gain realized on the sale of four pieces of property, three office buildings and a residence and land in Japan, was properly

characterized as business income. The court found that the sales satisfied both the functional and transactional tests and therefore did not need to reach the issues as to whether there was only the transactional test or also a functional test.

The taxpayer may file a petition with the United States Supreme Court in *Citicorp North America*.

Guy F. Atkinson Company v. Franchise Tax Board. In a significant unpublished decision, the appellate court upheld the trial court's determination that the solar energy tax credit was to be taken on a separate entity basis rather than on a unitary business basis.

Settlement

The Settlement Program settled 125 civil tax matter disputes between July of 1999 and June of 2000. The 125 settled cases involved \$146 million in disputed liabilities. Of the \$146 million in dispute, \$98 million was sustained.

Of the cases settled, 26 were settled under the Franchise Tax Board's "small case" authority. Small cases involve reductions in tax and penalties of \$5,000 or less. These cases are approved by the Franchise Tax Board's Chief Counsel and the Executive Officer, and reported to the three-member Franchise Tax Board. The three-member Franchise Tax Board approved the remaining cases.

APPENDIX A

Footnotes

TABLE 1

* Adjusted gross income less deductions.

a A temporary reduction in tax for lower income levels was effected in this period by widening the initial tax rate bracket from \$5,000 to \$10,000. This temporary reduction was renewed in 1945, 1947, and 1948, but was allowed to lapse in 1949. In addition, the maximum rate was reduced from 15% on amounts in excess of \$250,000 to 6% on amounts in excess of \$30,000.

b Income splitting on joint returns was first effective in this period. Under this provision, married taxpayers who filed joint returns paid tax using a rate that was the same rate as the rate a single taxpayer would use on the same income. This allowed married taxpayers to file one return, instead of splitting their income and filing separate returns to take advantage of a lower rate.

c The tax brackets were narrowed from \$10,000 to \$5,000 for married couples filing jointly and from \$5,000 to \$2,500 for all others. At the same time, the maximum rate was increased from 6% to 7%.

d The tax brackets were narrowed and the tax rates were increased to 10%. Taxable income was redefined as adjusted gross income less deductions, rather than adjusted gross income less deductions, personal exemptions, and dependent exemptions (Stats. 1967, Ch. 963).

A special 10% reduction in tax liabilities with a maximum of \$100 for single individuals and \$200 for married couples filing jointly, was effective for the 1969 taxable year (Stats. 1969, Ch. 1464).

A forgiveness tax credit of 20% was provided with respect to 1971 taxes, along with the enactment of the withholding and declaration of estimated tax program, effective on January 1, 1972 (Stats. 1971, [First Extraordinary Session] Ch. 1).

e The maximum tax rate was increased from 10% to 11% (Stats. 1971, [First Extraordinary Session] Ch 1). A special income tax credit ranging from 20% to 100% of the tax liability was effective for the 1973 taxable year (Stats. 1973, Ch. 296).

f Tax brackets were indexed at a rate of 5.22% for 1978, 6.88% for 1979, 17.33% for 1980, 8.26% for 1981, 9.32% for 1982, -1.2% for 1983, 4.6% for 1984 and 1985, and 3.5% for 1986. Indexing was suspended for 1987. The brackets were set by AB 53 (Stats. 1987, Ch. 1138). For 1988, indexing was reestablished at 4.6%. Indexing was 5.3% for 1989, 4.8% for 1990, 4.3% for 1991, 3.6% for 1992, 2.5% for 1993, 1.2% for 1994, 2.3% for 1995, 1.6% for 1996, 2.2% for 1997, 2.3% for 1998, and 2.6% for 1999. Indexing reflects the June to June change in the California Consumer Price Index less 3% for 1978 and 1979 and full indexing for 1980 and subsequent years (Stats. 1978, Ch. 569).

g The maximum tax rate was lowered from 11% to 9.3% effective for the 1987 taxable year. The number of tax brackets was reduced from eleven to six. Also, the preference tax was replaced with a 7% alternative minimum tax (Stats. 1987, Ch. 1138).

h A 10% and an 11% tax rate were added, increasing the maximum tax rate from 9.3%, effective for the 1991 through 1995 taxable years (Stats. 1991, Ch. 117).

i The tax brackets were eased for heads of household effective with the 1974 taxable year (Stats. 1973, Ch. 1180).

j For taxable years beginning on January 1, 1996, the regular top marginal tax rate was reduced from 11% to 9.3% and the alternative minimum tax rate was reduced from 8.5% to 7%.

APPENDIX A

Footnotes

TABLE 2

- a Temporary wartime provisions, enacted in 1943, increased the exemptions of individuals by \$1,000 and estates by \$500.
- b Additional temporary wartime provisions, enacted in 1945, increased the personal exemptions by another \$1,000. A standard deduction in lieu of itemized nonbusiness deductions was introduced at that time. The standard deduction was 6% of adjusted gross income less dependent exemptions when the taxpayer used the tax from the "optional tax table," or \$300 when the taxpayer filed a separate return and was ineligible to use the optional tax table and chose not to itemize deductions.
- c The temporary personal exemption increase enacted in 1945 lapsed. An additional \$500 was allowed to a blind taxpayer or spouse.
- d The filing of joint returns was made more attractive in this period. For couples with a combined income of \$10,000 or more, the standard deduction was raised from \$300 to \$600.
- e Personal exemptions were reduced by \$500, dependent exemptions were increased by \$200, and blind exemptions were increased by \$100. The standard deduction was increased from 6% to 10% of adjusted gross income less dependent and blind exemptions when the taxpayer used the tax from the "optional tax table" rather than the Tax Rate Schedule. For persons ineligible to use the Optional Tax Table (i.e., married couples with adjusted gross income of \$5,000 or more), the standard deduction was increased to \$1,000 for married couples filing jointly and to \$500 for all others.
- f A flat standard deduction of \$1,000 for married couples filing jointly and unmarried heads of household and a standard deduction of \$500 for all other individuals, regardless of the amount of adjusted gross income, was substituted for the 10% standard deduction in the prior law. Beginning in 1966, taxpayers who were nonresidents for any part of the year were required to prorate their personal exemptions, dependent exemptions, and their standard deduction.
- g Tax credits for personal and dependent exemptions were substituted for deductions (Stats. 1967, Ch. 1479).
- h The flat standard deduction was increased to \$2,000 for married couples filing jointly and unmarried heads of household and to \$1,000 for single persons (Stats. 1968, [First Extraordinary Session] Ch. 1). The \$50 exemption for heads of household includes the first qualifying dependent; the exemption for each dependent thereafter is \$8.
- i Legislation passed in 1987 that changed the personal exemption credits and reestablished preset standard deductions (Stats. 1987, Ch. 1138). A limitation on itemized deductions and a phase out of personal exemptions for persons with high income were added (Stats. 1991, Ch. 117).
- j These amounts are indexed for 1978 and 1979 above a minimum 3% and future years by the California Consumer Price Index change from June to June (Stats. 1978, Ch. 569). The rate was 17.33% for 1980, 8.26% for 1981, 9.32% for 1982, -1.2% for 1983, 4.6% for 1984 and 1985, and 3.5% for 1986. For taxable year 1987 indexing was suspended. The standard deductions and personal exemptions were legislatively set (Stats. 1987, Ch. 1138). For 1988, indexing was reestablished at 4.6%. Indexing was 5.3% for 1989, 4.8% for 1990, 4.3% for 1991, 3.6% for 1992, 2.5% for 1993, 1.2% for 1994, 2.3% for 1995, 1.6% for 1996, 2.2% for 1997, 2.3% for 1998, and 2.6% for 1999.

APPENDIX A

Footnotes

TABLE 3

- a In 1936, the bank and corporation franchise tax was extended to public utilities, which were previously taxed on gross receipts.
- b Temporary provisions were enacted during World War II to reduce the franchise tax rate by 15%. This temporary reduction, applied to income years ending in 1943 through income years ending in 1948.
- c The tax rate increase was effective for income earned on or after January 1, 1959. The minimum franchise tax increased to \$100 and was subsequently reduced to \$25 for credit unions with \$20,000 or less gross income, and for gold mining companies inactive since 1950.
- d The tax rate increase was effective for income earned on or after January 1, 1967.
- e The tax rate increase was effective for income years ending after December 31, 1971. The minimum tax increased from \$100 to \$200 (Stats. 1971, [First Extraordinary Session] Ch. 1).
- f The general corporation tax rate was increased from 7.6% on July 1, 1973, to reach the full 9%, on a monthly prorated basis with income years ending June 30, 1974, and thereafter. For 1973 calendar year corporations, the general tax rate was 8.3% and the bank and financial tax rate was 12.3% (Stats. 1972, Ch. 1406). The general tax rate was increased from 9% to 9.6% on January 1, 1980, to reach the full 9.6% on a monthly prorated basis with income years ending December 31, 1980, and thereafter (Stats 1979, Ch. 1150).
- g The tax rate was decreased from 9.6% to 9.3% operative for income years beginning on or after January 1, 1987. The minimum franchise tax was increased from \$200 to \$300 for income years beginning after December 31, 1986, to \$600 for income years beginning after December 31, 1988 and \$800 for income years beginning after December 31, 1989 (Stats. 1987, Ch. 1139). For income years beginning on or after January 1, 1990, credit unions were no longer required to pay minimum franchise tax (Stats. 1989, Ch. 1222).
- h The in lieu rate was set statutorily at 2% for income years ending in 1980 and 1981 (Stats. 1979, Ch. 1150), and for income years 1994, 1995, and 1996 (Stats. 1993, Ch. 31).
- i For taxable years beginning on January 1, 1997, the regular top marginal tax rate was reduced from 9.3% to 8.84% (Stats. 1996, Ch. 170).
- * The minimum franchise tax does not apply to corporations subject to the income tax rather than the franchise tax. Banks were exempted from the minimum franchise tax until 1980.
- ** Replaced the preference tax with an alternative minimum tax effective for income years beginning on or after January 1, 1987 (Stats. 1987, Ch. 1139).
- *** Since nonbank financials, such as savings and loan associations, pay local taxes and fees from which banks are exempted, they are entitled to offset their state tax by the amount of these local levies as long as the effective net tax rate does not drop below the general corporation tax rate. Beginning in 1981, however, these nonbank financials received the same protection from local levies as banks, which eliminated their offset (Stats. 1979, Ch. 1150).

1 Detail may not add to totals due to tolerance and rounding.

2 Adjusted gross income less business expenses and adjustments to income. Transfer payments such as social security, unemployment insurance, and welfare are excluded. Other significant differences from personal income are the inclusion of capital gains and the exclusion of the value of personal services.

3 Tax preference income is the amount reported on Schedule P of the tax return and includes the excluded portion of capital gains, accelerated depreciation amount in excess of straight line, excess depletion and several other statutory amounts.

4 Investment expenses are interest expenses, other than mortgage interest, that do not exceed investment income.

5 Expanded income is adjusted gross income plus tax preference income less investment expenses.

6 Average tax rate is the net tax divided by the income, as defined in the income concept.

7 These returns with an average tax rate equal to or greater than 9% of the income concept used have either alternative minimum tax or the tax on accumulation distributions. See Revenue and Taxation Code Section 17062-17066 for alternative minimum tax or Sections 17731-17839 for rules relating to estates, trusts, beneficiaries, and decedents.

APPENDIX B
Personal Income Tax
FOOTNOTES
1999 Taxable Year

- a Statewide Statistical Appendix Tables 1 through 5 were derived from data collected in a stratified random sample of 1999 personal income tax returns (before audit) filed during the 2000 filing season. Of the 127,000 returns sampled, 103,745 were resident returns. County Tables 6 and 7, and Table 9 were created from the Personal Income Tax Master File, which included data from current year returns before audit (prior year and amended returns were excluded). Because of the different sources, statewide tables and county tables are not strictly comparable. Detail may not add to totals due to rounding and suppression. (See Footnote f.)
- b Data were not available.
- c Population estimated by California Department of Finance.
- d Unable to determine county of residence from tax return.
- e Resident returns filed with an out-of-state address.
- f Statewide frequency data are not shown for cells with 3 or fewer returns. County level frequency data are not shown for cells with fewer than ten (10) returns, however; data are included in the appropriate totals.
- g Includes resident data only. May not be comparable to 1989 and prior years, which include resident, part-year resident and nonresident return data.
- h The sampling method was modified for 1994 and subsequent years to improve the reliability and precision of estimates. The improved method induced minor changes in the estimates.
- 1 Starting in 1982, nonresidents and part-year residents computed their tax on their total income and apportioned tax based on their California income. In prior years, the tax was based on California taxable income. Because of this change, adjusted gross income is not strictly comparable to 1982 and prior years.
- 2 Includes itemized zero bracket amount and nonitemized charitable contributions for taxable years 1984-1986. For taxable years 1983-1986, the standard deduction refers to taxpayers with zero deductions, because the Tax Tables already allowed for the deductions.
- 3 California adjustments include adjustments to federal income. These include items such as unemployment compensation, social security benefits, various California interest incomes, railroad retirement benefits, California lottery winnings, IRA distributions and net operating loss carryovers.
- 4 Taxable income for 1967 and subsequent taxable years is not comparable to earlier years. In 1967, exemption credits were substituted for exemption exclusions, and taxable income was redefined as adjusted gross income less deductions rather than adjusted gross income less deductions and exemption exclusions.
- 5 Total tax liability is tax computed on taxable income minus tax credits, which include personal, dependent, blind and senior exemption credits, child and dependent care credits, manufacturer's investment credit, residential rental and farm sales credit, child adoption credit, and other special credits, plus other taxes, such as alternative minimum tax.
- 6 When an individual return reported income from two or more sole proprietorships, all of the proprietorship incomes, profits and losses were combined and the resulting net profit or loss was recorded.
- 7 When an individual return reported income from two or more partnerships or S corporations, all of the partnership and S corporation incomes, profits and losses were combined and the resulting net profit or loss was recorded.

APPENDIX B
Personal Income Tax
FOOTNOTES
1999 Taxable Year

- 8 Net sale of capital assets changed significantly in 1987 from prior California law (1972-1986). Due to the enactment of the Tax Reform Act of 1986, the entire amount of capital assets post-1986 is included in gross income. Gains are also realized on income from collections on pre-1987 installment sales. Beginning in 1987, capital losses from carryovers and carrybacks are fully deductible against capital gains. Up to \$3,000 (\$1,500 single and married filing separate) of excess capital loss is deductible against ordinary income. California has conformed to federal holding period rules with regard to long- and short-term gains and losses. California has also enacted a separate credit for gains from the sale of residential rental or farm property.
- 9 All other federal income sources include net income from estates and trusts, net income for the disposition of noncapital assets, alimony received, miscellaneous income sources, social security and unemployment income and income from state and local income tax refunds. It also includes net losses from estates and trusts, from miscellaneous income and from noncapital assets.
- 10 Amounts listed are self-assessed before audit. Because of major differences between federal and state law regarding deductible contribution limitations, actual amounts after audit reveal that these figures are generally overstated.
- 11 Total adjustments include amounts for IRA exclusion, moving expense, alimony paid, half self-employment tax, self-employed health insurance plan exclusion, self-employed retirement plan exclusion, and the penalty on early withdrawal of savings.
- 12 Total interest includes interest paid on home mortgages and other nonbusiness items.
- 13 Total contributions combine current-year contributions of cash and other than cash with contributions carried over from the previous year. Taxpayers may be required to limit contribution deductions when contributions exceed a certain percentage of adjusted gross income. The difference between the total of cash, noncash and carryover contributions and total contributions reflects this limitation.
- 14 All other deductions include unreimbursed employee expenses, union dues, employment education expenses, handicap repairs, gambling losses and other miscellaneous deductions that exceed two percent of adjusted gross income.
- 15 Personal exemption credit increased for 1978 and subsequent taxable years and, therefore, is not comparable to that of earlier years.
- 16 Services:
- Professional services include medical, dental and other health services; legal services; accounting, auditing and bookkeeping services; educational services; and engineering and architectural services.
 - Personal services include laundry, cleaning and dyeing establishments; barber and beauty shops; photographic studios; and funeral services and crematories.
 - Other services include lodging, automotive and other repairs and recreational services.
- 17 Data for Alpine County were aggregated, because most categories of income have less than ten (10) as the number of returns.
- 18 Includes contributions to both Individual Retirement Accounts and to Spousal Individual Retirement Accounts.
- 19 Table includes credits claimed on all returns processed during 2000, including nonresident and part-year resident returns. Data were derived from Return Processing Master File rather than from the stratified random sample.
- 20 Totals may not add due to rounding.

Taxable Profit	29,287	\$ 56,299,183	26,612	\$ 57,147,328	1.5

* Includes apportioning corporations reporting net income, net loss, or no income.

** Totals may not add due to rounding.

APPENDIX C
Bank and Corporation Tax
FOOTNOTES
1999 Income Year

- a Tables were derived from a stratified random sample of 15,990 returns. Detail may not add to totals due to rounding.
- b Not available.
- c Estimated.
- d Data not shown for cells with 3 or less returns.
- e The sampling method was modified for 1994 and subsequent years to improve the reliability and precision of estimates. The improved method induced minor changes in estimates.
- 1 Corporations that sustained losses and those that “broke even” (mostly inactive corporations and cooperatives) are included in this table.
- 2 Includes positive income only.
- 3 Includes stone, clay, and glass products; primary metals; ordinance and accessories manufacturers; electrical machinery and equipment; transportation equipment; other equipment; other fabricated metal and wood products except furniture; furniture and fixtures; and other manufacturers not elsewhere classified.
- 4 Includes paper and allied products; chemicals and allied products; petroleum, coal, and rubber products; beverages, food, and kindred products; textile mill products; apparel and products made from fabric; printing, publishing, and allied industries; precision equipment; tobacco manufacturers; and leather and leather products manufacturers.
- 5 Includes doctors, dentists, psychiatrists, physical therapists, and lawyers who are incorporated as professional corporations.
- 6 Includes motion picture production; amusement services; personal services; hotels; employment agencies; automotive repair services and garages; miscellaneous repair services and hand trades; medical and other health services; educational institutions and agencies; other professional and social-service agencies and institutions; and corporations whose nature of business was not determinable.
- 7 National and state banks, savings and loan associations, and other financial institutions are subject to (a) the general franchise tax rate of 8.84 percent (or 1.5% if a financial S corporations) plus (b) the bank and financial in-lieu tax rate imposed under the provisions of Section 23186 of the Bank and Corporation Tax Law. For income years ending in December 1997 and after, the in-lieu rate was 2.0%, for a combined 10.84% (or 3.5% if a financial S corporation) tax rate. The bank and financial corporation rate is in lieu of all other local taxes and licenses, except real property taxes, automobile registration and license fees, sales taxes, utility users taxes, state energy-resources and emergency-telephone surcharges.
- 8 Includes transportation, communications, electrical and gas utilities, and other public utilities.
- 9 This table was derived from data gathered in a special study of tax credits. The information differs from the total reported in the “Credits” discussion in the Bank and Corporation Section of the text, because that information was derived from the Bank and Corporation Master File.
- 10 The Farmworker Housing-Constructon credit allowed amounted to less than \$500.
- 11 Totals may not add due to rounding.
- 12 There were no credits allowed for the Jobs Tax Carryover, Low-Emission Vehicle, Technological Property Contribution, or the Salmon and Steelhead Trout Habitat Restoration Credits.
